## Did you Know That?

Did you know that the wood you burn could be a ticking time bomb for the campground's forest and the whole region?

Transporting firewood is an important vector of tree diseases. Some harmful and newly established insects (like the emerald ash borer) or those that are making their way here (like the Asian long-horned beetle) represent significant risks to our forests.

To reduce these risks, please leave your firewood at home and get your wood directly from the campground.

The health of our forests could depend on this simple gesture.

**Buy:** at Services Center

## IN THE WILD, YOUR SAFETY IS YOUR RESPONSIBILITY

Outdoor activities can involve certain risks.

Always be sure to have the skills and abilities required for the activity you choose. It is very important to find out about the risks involved in the activity, to know and respect your own limits and to use appropriate equipment. Preparing yourself adequately is the first step in the safe and enjoyable practice of your favourite activities.

Le Village québécois d'antan

A breath of fresh air with a *Moment factory* flavor is felt! Live this new experience that takes us back in time, in the heart of an authentic French-speaking village in Quebec.

The Belvedere

Do you want a festive atmosphere close to the campsite with the added bonus of a view of the river? On Wednesday, Thursday and Friday evenings, starting at 5 p.m., sip a drink to the sound of guest musicians. Nothing better to start the evening!
